

RoHS Certificate of Compliance

EU Directive 2011/65/EU restricts the use of the 6 substances below in the manufacture of specified types of electrical equipment.

Whilst this restriction does not legally apply to components, it is recognised that component “compliance” is relevant to many customers.

Airtec Air Systems definition of RoHS Compliance:

- The product does not contain any of the restricted substances in concentrations and applications banned by the Directive,
- and for components, the product is capable of being worked on at the higher temperatures required by lead-free soldering

The restricted substances and maximum allowed concentrations in the homogenous material are, by weight:

Substance	Concentration
Lead	<0.1%
Mercury	<0.1%
PBB (Polybrominated Biphenyls)	<0.1%
PBDE (Polybrominated Diphenyl Ethers)	<0.1%
Hexavalent Chromium	<0.1%
Cadmium	<0.01%

The suppliers of the components for the item listed below have informed Airtec Air Systems that the components are “RoHS Compliant”.

Airtec Air Systems has taken all reasonable steps to confirm this statement. Information relates only to products sold on or after the date of this certificate.

Product description:	PROCESS AIR HEATER

Signed for and on behalf of: Airtec Air systems Ltd

Place of Issue: Mossley

Date of Issue: 10th July 2015

Name: Simon Cullen

Position: Director
